Read How These Men Got Good Jobs in RADIO

I will Train You at Home for RADIO *and* TELEVISION

J. E. Smith, Pres. Nat'l Radio Institute Est. 25 Years

Do you want to make more money? Broadcasting stations employ Radio experts in good-pay jobs. Fixing Radio sets in spare time pays many $200 to $500 a year—full time repair work pays many $30, $50, $75 a week. Many Radio experts open their own businesses. Radio manufacturers and jobbers pay well for trained men. Automobile, police, aviation, commercial Radio and Loud Speaker Systems offer opportunities. Television promises good jobs soon. Men I trained hold good jobs in all these branches of Radio. My 64-page book points out Radio's spare time and full time opportunities and those coming in Television; tells about my training; how to make extra money while learning; shows letters from 131 N.R.I. Graduates telling what they are doing, earning; shows my money back agreement. Get a copy FREE. MAIL COUPON NOW in envelope, or paste on a penny postcard.

J. E. Smith, President, National Radio Institute
Dept. 9GP3, Washington, D. C.

MAIL NOW FOR BIG BOOK *Free*

J. E. Smith, President, Dept. 9GP3
National Radio Institute, Washington, D. C.

Dear Mr. Smith: Without obligating me, send "Rich Rewards in Radio" which points out spare time and full time opportunities in Radio and explains how you train men at home to be Radio Experts.

10 Reasons Why You Get Quicker, Easier Shaves At A Big Saving With This New

Gillette Blade At ½ Price!

THERE'S a lot more to making a fine razor blade than just running a wafer of steel through a sharpener. That's why the Thin Gillette gives you fast, good-looking shaves at a real saving. Bear these facts in mind when buying razor blades.

1. Precision made to fit your Gillette Razor exactly.

2. Protects your face from smart caused by *misfit blades.*

3. Easy-flexing steel tempered to glass-cutting hardness.

4. Shaving edges of an entirely new and vastly superior kind.

5. Honed by secret process . . . they're keener . . . last longer.

6. Finished with abrasives finer than *finest* cake flour.

7. Scientific laboratory control of every manufacturing step.

8. Seventeen rigid inspections assure uniform quality.

9. Blades reach you factory-keen because *anchor wrapped.*

10. Product of foremost maker of fine shaving equipment.

Get the facts first hand. Buy Thin Gillettes from your dealer today.

NEW TOYS FOR CHILDREN

ONE of the pleasures of the home workshop is making toys for children—your own, your neighbors', or the poor kids on the other side of town. You'll get a lot of satisfaction from watching a child's face light up with happiness when he receives a toy you have made yourself. Eight pages in the October issue will be devoted to new and unusual toys.

IF I HAD ONLY KNOWN

Do *you* know that every fire insurance policy states that if fire occurs the insured shall furnish a complete inventory of the damaged and undamaged personal property? If you should have a fire tonight, it would be almost impossible to recollect tomorrow everything that was missing.

Get this free Household Inventory Booklet. It helps you make a complete list *before fire strikes!* It suggests objects frequently forgotten. It lists rooms one by one. Make an inventory right away and keep it in a safe place. It will save you work, worry and dollars and cents if you should have a fire. Send the coupon. It costs nothing. No obligation.

THE AMERICAN INSURANCE GROUP
Dept. 1117, 15 Washington St.
Newark, N. J.

Without charge or obligation, please send me your Household Inventory Booklet.

With it I not only perform mysterious stunts—But can build my own radio—My own telegraph practice set—My own radio announce system—It's just packed with fun and thrills!

RCA Electronic Labs have won the cheers of thousands of real boys—and their Dads, as well! For these Labs mean hour after hour of thrilling, exciting fun. And the Lab's parts may be used over and over again, for the construction of a variety of devices.

Just think! With an RCA Electronic Lab you can build your own Magic Relay—and that means a barrel of laughs. For with it, you can keep the whole family guessing by mysterious ringing bells, turning the radio on and off—and doing many other puzzling and amazing stunts. In addition, you will have a grand time constructing your own radio receiver and your own telegraph practice set, as well as an announce system for talking through the family radio.

Yes sir! All the adventure of electronics is yours with one of these fascinating new Labs. And while you're enjoying yourself—you'll be getting valuable knowledge too. So see the RCA Electronic Labs today. Available in two models. Priced from $7.50.* All parts are genuine. On display at your RCA Victor Dealer's—or wherever toys are sold!

For finer radio performance—RCA Victor Radio Tubes

Trademark "RCA VICTOR" Reg. U.S. Pat. Off. by RCA Mfg. Co., Inc.

HOW HE MARRIED HER WITHOUT A SCENT!

AL'S NEW CAR won Peg's fancy, but his new pipe got her nanny—it smelled fierce! So on went her roller skates to head for home. Wait! Here's the postman!

HE TOLD AL to clean his pipe, and refilled it with mild Sir Walter. Peg stopped to sniff, stayed to snuggle. The fragrant burley blend *always* wins! Try a tin!

IT SMOKES AS SWEET AS IT SMELLS

TUNE IN—*Sir Walter Raleigh "Dog House." Every Tuesday night, coast-to-coast, NBC Red Network.*

SMOOTH!

MOBIL HANDY OIL

It's penetrating, non-gumming. Keep it on hand for lubricating home appliances, sewing and washing machines, bicycles, toys. Fine for automobile generators and tools. Convenient wall clip free with every can.

PROTECTS CAR ENGINES —QUIETS VALVES!

Mobil Upperlube reaches the engine as a vapor. Special impregnating ingredient protects rings and valves from rust and wear. Reduces carbon. Quiets engine.

NOW IS THE TIME TO

Start a Home Workshop

How are you spending your spare time during the winter months? One of the best ways is in your workshop making projects for the home and to give to your family and friends. For the benefit of those who know little or nothing about a workshop, POPULAR SCIENCE MONTHLY is presenting a series of articles on the subject. "Why You Should Start a Home Workshop . . . And How to Do It" is this month's topic, which you will find on page 158.

In one of our home workshop articles Dan Beard, National Scout Commissioner of the Boy Scouts of America, once wrote, "With gumption a man can make almost anything." So if you have "gumption" and a genuine liking for tools, you can make a success of a home workshop . . . and you'll find it the finest hobby of all.
